

Student Engagement Survey

2019 Results Report

Santa Rosa County District Schools

Executive Summary

Santa Rosa County District Schools are committed to creating a great place for students to learn, teachers to teach, staff to work, and for parents to send their children to receive a great education. To build on this commitment, the leadership of the school district gathers and analyzes data on four essential goals and measures: Employee Engagement, Parent Satisfaction, Student Satisfaction, and Student Achievement. This journey of excellence based on measurable goals began in 2010 and focuses on the use of data to identify gaps, take action, and follow through to ensure continuous improvement in Santa Rosa County District Schools.

Students at all schools in the district had an opportunity to complete the Student Engagement survey to share their perception of their school experience. This report presents results by school, school level, and aggregated for the district, and includes longitudinal results for comparison.

District Summary Results

A total of **18,643** students across all primary, elementary, intermediate, middle and high schools, and special centers in the district accessed this year's Student Engagement survey. The district's overall mean is a **4.14** on a scale of 1 to 5, with five being the highest.

The following pages include:

- Table 1 - shows student participation by school and by survey administration.
- Table 2 - shows the overall mean for each school by survey administration.
- Table 3 – shows the item mean and overall mean by survey administration.
- Appendix 1 – displays participation and means by school level, and by survey administration.
- Appendix 2 – displays school results by survey administration.
