Cost of Attendance (COA) is a student's estimated educational expenses for one academic year and may vary by student. An academic year at Locklin Technical College is 900 clock hours and 36 weeks of instruction. The annual COA budget used to determine financial aid awards may be adjusted if prices change during the year. The COA for Pell Grants is always the full year costs for a full-time student. For individual program COA, see the Financial Aid Counselor.

Commuter - residing with parents, relatives, or friends without the responsibility of rent, mortgage, or dependent care.
