

2024/2025 CAREER DUAL ENROLLMENT ARTICULATION AGREEMENT BETWEEN
THE SCHOOL BOARD OF SANTA ROSA COUNTY AND RADFORD M. LOCKLIN TECHNICAL
COLLEGE

This Dual Enrollment Articulation Agreement is entered into by and between The Santa Rosa County School District (to include Santa Rosa Online, Home Education, Central, Gulf Breeze High, Jay High, Milton High, Navarre High, Pace High and Santa Rosa High) hereafter referred to as the “District” and Radford M. Locklin Technical College, hereafter referred to as the “College” for the 2024/2025 school year, and;

WHEREAS, Florida Statutes Section 1007.271 provides that Career Dual Enrollment (CDE) is a curricular option of elective credits toward earning a high school diploma and completing a career certificate program through a district’s technical college, and;

WHEREAS, the District wishes to enhance opportunities for high school students to establish clear career and post-secondary education goals before high school graduation, and;

WHEREAS, the College, a publicly funded postsecondary institution, can provide a variety of high skill, high wage career training program options, and;

WHEREAS, the District and the College accept the challenge of ensuring that every Santa Rosa County high school graduate has the opportunity to acquire a defined pathway to a career and post-secondary education;

NOW, THEREFORE, BE IT RESOLVED that the District and the College agree to the following:

A. This dual enrollment articulation agreement supersedes all previous career dual enrollment agreements between the District and the College in S. 1007.271(21)(a), F.S.

B. Career Dual Enrollment is the enrollment of an eligible District secondary student in a post-secondary course creditable towards high school completion and a career certificate.

i. Only career preparatory courses contained within the state course numbering system and part of a sequence of courses in a program offered through the College that lead to industry certification from the approved Industry Certification Funding List in s. 1008.44, F.S., are part of this agreement. New CDE courses meeting this specification may be added at any time by agreement of the District and the College in S. 1007.271 (21)(c). A chart delineating programs, courses, clock hours, credits, occupational completion points (OCPs) and industry certifications is included as attachment A.

ii. All career and technical secondary courses have been identified in the Florida Course Code Directory as satisfying the fine or performing arts high school

graduation requirement (s. 1003.428(2)(3)(e) F.S.) (s. 1003.428(2)(a)(5) F.S.), the equivalent CDE post-secondary CTE course will also satisfy that requirement.

iii. The College will notify students and parents of the CDE opportunities through the District's Student Progression Plan (SPP), high school guidance department curriculum guides and registration forms, and the College Curriculum Guide and Student Handbook.

iv. CDE is available on a part-time basis to all eligible secondary students based on current dual enrollment (DE) course offerings through the college and space available in the course.

v. Career Early Admissions is a form of CDE and is limited to students who have completed a minimum of 4 semesters of full-time secondary enrollment, including studies undertaken in the ninth grade pursuant to S. 1007.271(11), F.S.

vi. Home education students registered with the District are included in this articulation agreement and may participate in CDE at the College.

vii. CDE is available to eligible District secondary students meeting the following criteria:

- Possess and maintain a minimum 2.0 unweighted GPA
- Be on track for high school graduation (S. 1007.271(21)(e), F.S.)
- All students enrolled in CDE must meet the Basic Skills requirement as specified in State Board Rule 6A-10.040(8)

viii. According to S. 1007.271 (3), F.S., the College may deny continued DE if the student meets the initial eligibility criteria as stated in this articulation agreement, but "is disruptive to the learning process such that the progress of other students or the efficient administration of the course is hindered."

ix. According to S. 1007.271(2), F.S., "students projected to graduate from high school before the scheduled completion date of a post-secondary course may not register for that course through dual enrollment."

x. Exceptions to the required GPA may be granted on an individual basis if the District and the College mutually agree.

xi. CDE curriculum allows for accommodations for CDE students with current Individualized Education Plans (IEP). Exceptional Student Education (ESE) students have access to an ESE instructor and resource room. Accommodations are provided in compliance with the individual student's IEP.

C. Application and Registration

- i. Applications and registrations for CDE will be accepted in the spring term for the beginning of the upcoming school year. Midterm applications will only be accepted on a space available basis and with mutual agreement of the District home school guidance counselor and the College guidance counselor.
- ii. Students will apply for admission by completing the online application. All additional required CDE paperwork will be dispersed the first week of class.
- iii. Students who wish to withdraw their registration request to the College must do so through their home school guidance counselor. The home school guidance counselor will in turn notify the College guidance counselor. Home education students who wish to withdraw their registration request must do so through the College guidance counselor.

D. Grades and Delineation of High School Credit

- i. The College will follow the grading scale outlined for District students in the current SPP. Grades will be entered by the program instructors through the District grading system.
- ii. Awarding of the equivalent high school credit for all CDE courses will follow the District SPP. Articulated credit may be awarded for industry certification attainment; see individual program articulation agreements.
- iii. Career and Technical DE courses under this agreement will be weighted equally as Advanced Placement courses and will count towards high school graduation. (S.1007.271 (18), F.S.)
- iv. When a CDE course is taken during the middle school years, a student will earn high school credit in accordance with the District's policies outlined in the high school section of the SPP.
- v. Completion of a CDE course is based on successful completion of program curriculum and performance standards. In order to earn the OCP for course and/or program completion, students must earn a grade of 70% or higher in the course(s).
- vi. CDE curricular expectations will be communicated with the student and parent through the College Curriculum Guide and Student Handbook and the course/program syllabus. The District and the College will collaborate to monitor

and maintain individual student performance in career dual enrollment courses. The College shall be responsive to parent inquiries regarding student performance and progress in CDE.

E. CDE Costs

i. The College will be responsible for all costs associated with presenting career dual enrollment instruction at the College unless otherwise agreed upon by both the District and the College.

ii. Students participating in career dual enrollment are exempt from the payment of application, registration, tuition, instructional materials, laboratory fees and other fees such as technology fees. Students will be issued program uniforms, as appropriate. Students who wish to keep their program uniform must purchase the program uniform.

iii. The District will be responsible for the costs of transporting career dual enrolled District students to and from the College within the established transportation system routes and boundaries.

iv. Exceptions

- Due to the program requirements related to clinical hours of instruction students enrolling in the Practical Nursing Program must provide their own transportation to and from the College and all clinical sites.
- Home education students will be responsible for their own transportation to and from the College.

Whenever any notice, demand, or consent is required or permitted under this Agreement, such notice, demand, or consent shall be in writing and shall be deemed sufficiently given:

- (i) On the day personally delivered; or
- (ii) three (3) days after deposit in the US mail if mailed by registered or certified mail, return receipt requested, postage prepaid; or
- (iii) on the day delivered if sent by recognized overnight courier service to the following addresses:

The School Board of Santa Rosa County, FL
6032 Hwy 90
Milton, FL 32570

Radford M. Locklin Technical College
5330 Berryhill Rd
Milton, FL 32570

IN WITNESS WHEREOF, the parties hereto have caused this Agreement to be executed under seal, by the date written below.
